**THE MEDICAL MISSIONARY**  
**SOCIETY IN CHINA.**  
**Sixty-Third Annual Meeting.**  
The sixty-third Annual Meeting of the  
Society was held in Canton, at the house of  
Messrs Shevan, Tomes & Co., on the 15th  
of January, 1902.  
There were present:—Rev. R. H. Graves,  
M.D., D.D., President, in the chair; Vice-  
President, Hon. Robert M. McWade, U.S.  
Consul; Rev. Messrs S. C. Topo, G. W.  
Greener, R. E. Chambers, C. A. Nelson,  
A. Beattie, Ph.D., E. Dewstoe, W.  
Brady, C. E. Patton, Dr. C. C. Selden,  
Richard Hancock, Esq., R. Wynn, Esq.,  
Dr. C. C. Chan, and J. M. Swan, M.D.

The meeting was opened with prayer by  
Rev. S. C. Topo, after which the notice  
convening the meeting was read by J. M.  
Swan, who was appointed secretary pro tem.  
The financial reports of the Treasurer  
and of the Hospital were presented and  
approved, the following abstracts being  
read by the Secretary, viz:—  
**Abstract of the Treasurer's Account.**  
**RECEIPTS.**  
Jan. 1st 1901 Balance forward, \$2,294.88  
Dec. 31st Subscriptions as per  
list, 2,330.03  
Dec. 31st Bank interest, 6.74  
Total, \$4,631.65  
**EXPENDITURES.**  
January to December 1901, \$2,040.00  
Paid Chairman's orders, 11.38  
Taxes in weight, 2,620.17  
Cash balance to new account, \$4,631.65  
**Abstract of Hospital Account.**  
**RECEIPTS.**  
January 1st, 1901, \$8,270.46  
Cash on hand, 7,622.74  
Net Hospital receipts, 2,850.03  
Special Subscriptions for new  
property, 2,000.00  
Cash received from Treasurer  
M.M.M. Society, 12,743.30  
Total, \$20,686.53  
**EXPENDITURES.**  
December 31st, 1901, \$8,841.06  
Cost of new property (quar-  
ters 1900), 3,850.00  
Cash on hand, 52.24  
Total, \$12,743.30

**ABSTRACT OF THE HOSPITAL REPORT.**  
In reviewing the work of the hospital  
many encouragements are found, none being  
more prominent than the marked apprecia-  
tion of this work by the Chinese, shown  
by cordial expressions of good will and  
their rendering financial aid. This hearty  
support on the part of the Chinese has  
enabled us to better meet the demands of  
the work and so demonstrate to them the  
benefits of modern Medicine and Surgery.  
In July an electric light installation for  
twenty-seven lights was put into the pre-  
mises, thus enabling us to largely do away  
with kerosene oil lights, which have ever  
been a source of atmospheric contamination  
in the wards where the patients had access  
to them. The ground surface of the new  
property and most of the walks in the  
hospital premises have been cemented, and  
a light shell covering placed over the main  
walk which connects four of the large  
hospital buildings with the kitchens and  
assistants' quarters. Some of the general  
wards have been refitted with glazed  
non-absorbent tile from the Green Island  
Cement works, and the walls painted, thus  
greatly improving the conditions for the  
treatment and care of patients.  
The work in the women's wards and the  
out-patient department associated with this de-  
partment has continued as usual and with good  
results. In both the men's and women's  
departments many important operations  
have been performed, a larger number of  
cases of Cataract being present than in any  
previous year. Two typical cases of Lupus  
Erythematosus (a hitherto incurable form  
of skin disease) were successfully treated with  
the Roentgen rays, the method being an  
eight or ten-minute exposure every two or  
three days for a period of about eight  
weeks. In the many cases of gunshot in-  
jury and fracture which come to the hospi-  
tal the use of the Roentgen rays has been  
invaluable.  
The entomological work of the hospital has  
never been more emphasized than at present,  
and patients are impressed with the  
fact that this work of healing is but an out-  
growth of Christianity. Every morning  
and evening, services are held, and the daily  
work of teaching in the wards and preach-  
ing affords abundant opportunity for all to  
learn the Christian Doctrine.  
Late in the year, a final appeal was made  
to the foreign community to clear off the  
remaining portion of the debt (nearly \$400)  
for new property. A ready response was

tal the use of the Roentgen rays has been  
invaluable.  
The entomological work of the hospital has  
never been more emphasized than at present,  
and patients are impressed with the  
fact that this work of healing is but an out-  
growth of Christianity. Every morning  
and evening, services are held, and the daily  
work of teaching in the wards and preach-  
ing affords abundant opportunity for all to  
learn the Christian Doctrine.  
Late in the year, a final appeal was made  
to the foreign community to clear off the  
remaining portion of the debt (nearly \$400)  
for new property. A ready response was

**ABSTRACT OF THE HOSPITAL REPORT.**  
In reviewing the work of the hospital  
many encouragements are found, none being  
more prominent than the marked apprecia-  
tion of this work by the Chinese, shown  
by cordial expressions of good will and  
their rendering financial aid. This hearty  
support on the part of the Chinese has  
enabled us to better meet the demands of  
the work and so demonstrate to them the  
benefits of modern Medicine and Surgery.  
In July an electric light installation for  
twenty-seven lights was put into the pre-  
mises, thus enabling us to largely do away  
with kerosene oil lights, which have ever  
been a source of atmospheric contamination  
in the wards where the patients had access  
to them. The ground surface of the new  
property and most of the walks in the  
hospital premises have been cemented, and  
a light shell covering placed over the main  
walk which connects four of the large  
hospital buildings with the kitchens and  
assistants' quarters. Some of the general  
wards have been refitted with glazed  
non-absorbent tile from the Green Island  
Cement works, and the walls painted, thus  
greatly improving the conditions for the  
treatment and care of patients.  
The work in the women's wards and the  
out-patient department associated with this de-  
partment has continued as usual and with good  
results. In both the men's and women's  
departments many important operations  
have been performed, a larger number of  
cases of Cataract being present than in any  
previous year. Two typical cases of Lupus  
Erythematosus (a hitherto incurable form  
of skin disease) were successfully treated with  
the Roentgen rays, the method being an  
eight or ten-minute exposure every two or  
three days for a period of about eight  
weeks. In the many cases of gunshot in-  
jury and fracture which come to the hospi-  
tal the use of the Roentgen rays has been  
invaluable.  
The entomological work of the hospital has  
never been more emphasized than at present,  
and patients are impressed with the  
fact that this work of healing is but an out-  
growth of Christianity. Every morning  
and evening, services are held, and the daily  
work of teaching in the wards and preach-  
ing affords abundant opportunity for all to  
learn the Christian Doctrine.  
Late in the year, a final appeal was made  
to the foreign community to clear off the  
remaining portion of the debt (nearly \$400)  
for new property. A ready response was

made, and the object attained. We take  
this opportunity of expressing our hearty  
thanks to those who so generously aided us  
in meeting this emergency.  
The following is a summary of the  
statistics of medical work:—  

	Out-patients.	In-patients.	Surgical operations.
Men...	15,720	1,478	1,865
Women...	4,957	437	482
Total...	20,677	1,925	2,347

  
After approval of the Hospital Report  
and authorizing the usual number to be  
printed in English and Chinese, the report  
of the Managing Committee was presented  
by the Committee's Secretary, Mr. Topo.  
Report of the Managing Committee for  
1901.

It is the privilege of the Committee to  
report that there has been no interruption  
of prosperity in the hospital work. There  
has been an increase of in-patients, and the  
income has also reached a total larger than  
that of any previous year. The debt of  
\$1834, incurred by the purchase of property  
in 1901 has been cleared off, \$2850, having  
been paid in as special subscriptions for  
this object. The property in question has  
been improved in many ways; a substantial  
three-story building now stands on the  
Eastern portion, and Kitchens, storerooms,  
and servants' quarters occupy the remainder  
of the new premises. This completion  
of the scheme by which all kitchens, assistants'  
and servants' quarters are eliminated from  
the main block of buildings in the men's  
department.

An earnest effort is being made to provide  
the Hospital with a larger supply of clothing  
and bedding, the provision heretofore being  
wholly inadequate. A better water supply  
is also greatly needed, and to meet these  
demands special estimates in the proposed  
expenditure for the coming year are  
submitted, for which your vote is asked. A  
marked increase in the cost of labour and  
supplies will also add to current Hospital  
expenses.  
Suitable action has been taken in refer-  
ence to the death of the late Dr. Kerr, and  
a tablet to his memory will be placed in the  
Hospital, its form to be in harmony with  
those already erected to his predecessors.  
The Hospital premises are clean and in  
good order. Larger and better accommoda-  
tion is needed for the main dispensary, and  
at an early date some repairs will be needed  
on the College ward.

The question of establishing a properly  
organized Medical College has been con-  
sidered by the Committee. It will be  
presented to you in the form of a special  
report and the Committee urge that it  
meet with your cordial and unanimous ap-  
proval.  
The following estimates for 1902 are re-  
commended:—  

Hospital current expenses	\$3500
Foreign drugs and supplies	2300
Printing books, and stationery	600
Repairs and improvements	600
Clothing & bedding for four general wards, (64 beds)	600
Water supply	1000
Foreign Library	100
Medical College Department (if it come permits)	1600
Total	\$10,600.

  
(Signed)  
**Dr. E. Z. SIMMONS,**  
Chairman.

On motion, this report with its recom-  
mendations was accepted and approved,  
and the estimates for the current year  
authorized with the exception of the last  
item, which was deferred until action was  
taken by the Society in regard to the pro-  
posed Medical College.  
The Secretary presented the following  
scheme for the establishment of a Medical  
College, which scheme had already received  
the unanimous approval of the Society's  
Managing Committee.  
A MEDICAL COLLEGE FOR SOUTH CHINA.  
In view of the increased interest in  
Western Medicine and Surgery and the  
frequent enquiries made by the Chinese as  
to the opportunities in connection with the  
Hospital for the study of Medicine, those  
most interested in the work of the Hospital  
feel that this important question of  
thorough education in Western Hygiene,  
Medicine, and Surgery should be promptly,  
fully, and fairly met.  
There are few places to be found any-  
where that will afford such excellent clinical  
advantages as are found in the Medical  
Missionary Society's Hospital. Beside  
instruction and actual work in the oper-  
ating room are essential factors in the  
thorough education of students of Medicine.  
The Hospital has about three hundred beds,  
and during the past year nearly two thou-  
sand in-patients were received and over two  
thousand surgical operations performed.  
In addition, there is also a large out-patient  
Clinic with over twenty thousand visits of  
out-patients each year.

It is therefore proposed to establish a  
properly organized Medical College for men  
in connection with the Hospital, and to use  
every possible means to make it of a high  
standard. There are good reasons for be-  
lieving that the most influential men in  
South China, and native community  
will take an active interest in this work,  
and that diplomas issued by the College  
will carry with them a weight of influence  
well worth the years of earnest effort re-  
quired to obtain them.  
The following propositions are made in  
order that the scheme for the establish-  
ment of a Medical College may take definite  
form:—  
1st. That a special committee on organ-  
ization and equipment be formed with the  
Hon. Robert M. McWade, United  
States Consul, as chairman. In case of Ser-  
vula, Scarry, Ezeema, Bad Legs, Skin and Blood  
Diseases, Eruptions and Sores of all kinds, the  
effects of Clarke's Blood Mixture are marvellous.  
Thousands of wonderful cures have been effected  
by Dr. Clarke's Blood Mixture in all over-  
where, at 25. 94 per bottle. Beware of cheap  
less imitations and substitutes. E24

1st. That a special committee on organ-  
ization and equipment be formed with the

States Consul, as chairman. In case of Ser-  
vula, Scarry, Ezeema, Bad Legs, Skin and Blood  
Diseases, Eruptions and Sores of all kinds, the  
effects of Clarke's Blood Mixture are marvellous.  
Thousands of wonderful cures have been effected  
by Dr. Clarke's Blood Mixture in all over-  
where, at 25. 94 per bottle. Beware of cheap  
less imitations and substitutes. E24

# DON'T PAY THE PRICE OF PURE BEER and not get it.

## SCHLITZ BEER and common beer cost about the same.

Why should you not have the best?

Schlitz Beer costs twice the common kind to brew.

Why should you not have the benefit?

Schlitz Beer is pure and healthful; made of the costliest materials; brewed in absolute cleanliness; cooled in plate glass rooms; filtered, then sterilized after it is bottled and sealed.

Why pay the same for a beer that isn't?

Schlitz Beer is aged in refrigerating rooms for months before it is marketed. Does not ferment on your stomach like green beer or cause biliousness.

Why drink a beer that does?

There can be no impurity in clean beer; no microbes in sterilized beer; no headaches in aged beer. Schlitz beer has for 50 years been the standard of the world because of its healthfulness.

When you find this brand on the bottle you have the best beer money can buy.

# WATKINS, LIMITED,

CHEMISTS AND AERATED WATER MANUFACTURERS,

66, QUEEN'S ROAD CENTRAL.

three years, he requested to give all possible aid in the collection of funds and the establishment of the College.

3rd. That a general appeal be issued for subscriptions to the extent of \$50,000 to meet the expense of buildings, equipment, &c., the same to be owned and controlled by the Medical Missionary Society.

4th. That due provision be made for teaching Sanitation, Hygiene, and the nursing and care of the sick.

5th. That steps be taken at once toward providing professors and teachers for carrying on this work, the Chinese language being used as the medium of instruction.

6th. That the special committee on organization and equipment, associated with the Society's Managing Committee, be authorized to arrange for entrance examinations, lecture courses, tuition fees, and such rules and regulations as are necessary for the work of the college.

It only remains to be stated there is every reason to believe that if this work is once well organized and given a well equipped plant, it will flourish itself.

All those interested in the welfare and progress of the Chinese will join in establishing this work which will in the end bring untold relief to suffering humanity, and help the Chinese to understand and properly value the use of God-given sunlight, fresh air, and the blessings of good health.

After full discussion of the question as a whole, the Society approved of the establishment of a Medical College as set forth in the foregoing statement. The various proposals were taken up separately, and after discussion, adopted. The following special committee on organization was appointed:

Hon. Robert M. McWade United States Consul, Chairman, Richard Hancock, Esq., Fritz A. Brockelmann, Esq., Rev. C. A. Nelson, Mr. Lee Heng Ching, Mr. Chau Tung Sang, John M. Swan, M.D., Vice-Presidents, Hon. Robert M. McWade, Esq., U.S. Consul; C. Scott, Esq., H.B.M. Consul; Dr. Lang, Consul for Germany; G. D. Fearon, Esq., Hon. J. J. Kewick, Robert Shaw, Esq., Sir Thomas Jackson, P. B. Smith, Esq., Rev. H. V. Noyes, D.D.; Rev. C. Burt, Rev. E. Z. Simmons, Rev. S. G. Type; In the United States, T. B. Cunningham, Esq., Hon. Chas. Seymour, Treasurer, Edwin A. Stanton, Esq.; Secretary, John M. Swan, M.D.; Auditor, Richard Hancock, Esq.; Managing Committee, J. M. Swan, M.D., E. A. Stanton, Esq., E. Wynn, Esq., Rev. E. Z. Simmons, and Rev. W. Bridge.

A special vote of thanks was extended to Hon. Robert M. McWade U.S. Consul, for his hearty interest in the work of the Hospital and for his interest in securing subscriptions for the College.

Also to Mr. Richard Hancock for his painstaking audit of the Society's accounts, to Mr. Stanton, treasurer, to the Surgeon in charge of the Hospital, to H.R. the Nam Hai Magistrate for his stamping the deeds of recently purchased property, free

of charge, and to the L. M. Customs for donations of salt.

There being no further business, on motion, the meeting adjourned.

JOHN M. SWAN, Secretary.

R. H. GRAVES, Chairman.

WAS IT A POISON SNAKE?

Sometimes John Garrett would go from morning till night without bite or sup. This was those of four years ago. Every morning he got up with a disagreeable, gnawing pain in the stomach or abdomen—no doubt quite acute, but he felt it all the same. He kept on working. He meant to see a doctor but neglected it. So a year ran away. By then the complaint had got hold of him as a wild grape vine does of an old tree.

He was a man full of pain as an unwarmed cellar is of mould and crawling things. Often they kept him from his work for twelve hours before he got a bit of ease; and for those weeks straight away he was in bed, waiting for the intruder to make the next run of him in distress.

Then he went to bed, John did, and a doctor took him in hand, as a pilot does a ship when the navigation is growing ugly. "My doctor," Garrett says, "was the best of men, but he didn't seem to know what ailed me." Nor did the other medical men who followed him.

On this one poor mother's heart, sank within him, as King David's did when he heard of the fate of Absalom. Having nothing to do, except to think, he thought he would go to a London hospital and ask the learned men there what was the matter with him. They said his right kidney was diseased and the left one affected. They feared they couldn't help him but would take him in for a week if he cared to stay. He said he didn't care to stay, and went home to D. Street. Quite right. As a place to die in the hop country looks a hospital!

Then he told his home doctor what the London doctors had said. The home doctor agreed with the London doctors and told him he would soon join the silent majority—who are done with diseases.

The end of Garrett's story, written by him at his house, 13, Wellington Road, Duffield, Kent, January 7th, 1901, runs this way: "I kept on of food and moved about all I could. I carried up at the works sometimes, but from January, 1900, to Easter I did not earn enough to keep myself. More than once they sent me home."

For three years I lay about, along in this fashion when one Sunday I read in *Lloyd's Newspaper* about a storekeeper who was handled by a snake and had been cured by Mother Seigel's Syrup; and without saying a word to anybody I got that medicine and began taking it.

The first bottle pinched up my appetite and I actually felt hungry—a strange sensation for me. I slept better. The pain was not so sharp and the kidney secretion was clearer and of a better colour. The second bottle, did me more good still, and after the third I felt like a king, I mean a healthy and happy king, if there is such a being.

"To-day I feel as well as I ever did. Saturday last I felt a bit out of sorts, from indigestion probably, and took a dose of Seigel's Syrup; and to-day I am right as rain. You may publish my tale."—John Garrett.

Did this man have Bright's disease? You have heard what the doctors said. Let us leave the point to them. Whether the snake that bit us was a poison snake or not is of no importance after we have got rid of the effects of the bite. Anyway, whatever Garrett had, Mother Seigel's Syrup cured him; and the rest is nothing.

He has been employed at the *Daily Telegraph* paper mills for twenty-six years, but does not look his sixty years, his real age. Meeting him to-day you would not imagine he had ever been ill at all.

HAD A GOOD TIME.

A. J. SNEEL wanted to attend a party, but was afraid to do so on account of pains in his stomach, which he feared would grow worse. He says: "I was telling my troubles to a lady friend, who said: 'Chamberlain's Colic, Cholera and Diarrhoea Remedy will put you in condition for the party.' I bought a bottle and took pleasure in stating that two doses cured me and enabled me to have a good time at the party." Mr. Sneel is a resident of Summer Hill, N. Y., U. S. A. This remedy is for sale by All Dealers; WATKINS Ltd., General Agents.

INFECTIONS IN THE BLOOD.—We have seen hosts of letters from people who have received great benefit from the use of Clarke's Blood Mixture. It cannot be too highly estimated, for it cleanses and clears the blood from all impurities. This is a good testimonial from the Family Doctor, which goes on further to say: "It is the finest Blood Purifier that science and skill have brought to light, and we can with the utmost confidence recommend it to our subscribers and the public generally." For Scalds, Sores, Eczema, Eruptions, Skin and Blood Diseases, Pimples and Styes of all kinds, its effects are marvellous. Thousands of wonderful cures have been effected by it. Clarke's Blood Mixture is sold everywhere, at 2s. 6d. per bottle. Beware of worthless imitations and substitutes.

# DEATHS.

On the 13th January, at the General Hospital, Shanghai, at 7 a.m. GEORGE HOWARD, Chief Inspector of the Municipal Police, aged 54 years, after 23 years' service in the Police Force.  
At 54, Yangtzepoo Road, Shanghai, on 12th January, of scarlet fever, KENNETH KIRK CAMERON, aged 5 years and five months, eldest child of W. M. and Mrs. Cameron.

The publication of this issue commenced at 9.25 a.m.

The China Mail

HONGKONG, FRIDAY, JANUARY 17, 1902.

## EDITORIAL COMMENT.

We observe with much a medical satisfaction that at the COLLEGE FOR annual meeting of the SOUTH CHINA Canton Hospital Society a resolution to establish a fully-equipped Medical School in connection with the Hospital met with unanimous and hearty support. A sum of \$50,000, a very modest request for so great a scheme, is asked for to build and equip this proposed Medical College. It is intended that accommodation shall be made for one hundred students. The facilities at the Canton Hospital for a thorough course in medicine and surgery are unique. Under the able management of Dr. Swan, the Hospital has become an up-to-date institution, and all that he requires is additional funds to make it still more complete. There are three hundred beds, which were occupied by three thousand patients during the course of the year. Thousands of operations have been skilfully performed and over twenty thousand out-patients seen at the Hospital. For a medical missionary to do a work of this magnitude and beneficence is indeed a great service to suffering humanity; but if he can communicate his knowledge and skill to tens and hundreds of Chinese students, his service is even of greater value, and what is more, it is perpetuated and indefinitely extended. That famous medical missionary, Dr. Kerr, of blessed memory, was the pioneer in the work of training Chinese doctors in western medicine. Among his many monuments, the twenty volumes dealing with medicine and surgery which he translated into Chinese will cause his name to be revered for many years to come.

Western methods of healing have now a strong hold on the Chinese. The rapidity with which the strong prejudice has changed to favour and even preference in many cases over native methods is one of signs of the times. How is this growing demand to be met? Already a great number of Chinese are carrying on very profitable businesses for the supply of foreign medicines. The probability is that this will go on increasing, and the question will have to be answered as to the wisdom of entrusting dangerous drugs in the hands of unskilled and untrained men. Would it not be well to form a class in the new Medical School where a course of study corresponding to that required by chemists and druggists in England could be taught? A law then could be made that no one should be allowed to dispense foreign medicines who did not hold the proper qualifications. More important still is the fact that these Chinese trading in foreign medicines have a supply of surgical instruments which only skilled surgeons are capable of using. It is a well-known fact that Chinese who have had absolutely no training are in possession of these delicate and dangerous surgical instruments which they do not hesitate to use. Amazing as it may sound, it is none the less true that men who have been coolies in connection with foreign hospitals are practising western medicine, and even attempting surgery with these life-saving instruments of foreign doctors but which in their unskilled hands are nothing less than instruments of death! Crude and unscientific as are the methods of the native doctors, they are mild and harmless at the worst compared with coolies and uneducated Chinese in possession of dangerous drugs and still more dangerous instruments. It is for this reason that we ask the question—has the time not come when steps should be taken to prevent Chinese practising western medicine and what might be called, not unfairly, butchery rather than surgery, unless they hold a certificate from some accredited foreign doctor or Hospital? The interests of humanity and the fair fame and name of western science demand it. Without any very great difficulty this might at this stage be carried out. Let the medical missionaries and societies make a united

representation to their Consuls, who in their turn, can influence the mandarin to make this new law. In conclusion, we heartily commend to all our readers and all Chinese friends of progress this excellent and timely scheme to establish a Medical School for South China.

## LOCAL AND GENERAL.

**Notes by the Way.**  
The British Parliament opened yesterday.

Dr. Griffith John has returned to Hankow after a trip of five weeks in Hunan.

The opening ceremony of the French Waterworks at Shanghai took place on the 11th inst.

Several plague cases are reported to have occurred in Newchwang and a few cases of smallpox in the native city at Tientsin.

Dr. Poole, of the British Legation at Peking, has been very ill with typhoid fever, the third case in the Legation. It is supposed to be due to bad drainage.

The British Municipal Council at Tientsin has opened at its offices in the Gordon Hall a register of natives of India employed or seeking employment as watchmen.

German papers protest against the action of the Government in inviting Boer refugees to settle in German West Africa. Prefer to give the Boers moral rather than material support, we suppose.

There is a chance of Conservatives capturing the Radical stronghold of Dewsbury, owing to the Liberals being divided as to the candidate to succeed the retiring member, Mr Mark Oldroyd.

The Shanghai Municipal Council has made a grant of Tael 10,000 to the Shanghai Public School. The Council expresses the hope that where parents are in necessitous circumstances pupils' fees will be reduced as much as possible.

It is stated that an application has been made to the War Office for permission to raise another Yeomanry Regiment in London, to be recruited mainly from men on the Stock Exchange and in the large City banks and shipping offices. This will make the fifth regiment raised within the county area in less than twelve months, and the strength of the five regiments, when they attain their full complements, will be nearly 3000 horsemen.

**Football.**  
There will be a football match at the Happy Valley between the Hongkong F. C. (Association) and The Navy to-morrow afternoon; kick-off at 4.15. The following will represent the Club:—Goal, C. T. Kew; backs, W. H. Howard and W. H. Russell; half-backs, J. E. Lee, G. B. Macdonald, R. A., and S. L. Jenkins; forwards, W. W. Clarke, J. D. Danby, F. von der Ploeden, Capt. Tulloch, R. A., and A. R. Lowe.

**A Popular Official.**  
The *Soochow* correspondent of the N.C. Daily News wrote on the 8th inst.:—*Soochow* reluctantly to-day said farewell to her great and good Governor Nien, who last year in the midst of the Boxer troubles posted 10,000 copies of his famous protest, the foreigner proclamation. He is the son-in-law of the famous Yuenyü Tsing Kue-fan, and brother-in-law of the late Matquis Tsing. He is one of the leading progressive mandarins in China, and as he is now only forty-six years of age we may predict for him a brilliant future. He leaves in a few days to take his post as Governor of Anhui.

**Foreign Residences in Peking.**  
The Peking correspondent of the N.C. Daily News writes:—Foreign quarters within the Imperial city are only four. One is the Roman Catholic Cathedral—the Pater Noster on the west side. A second is the Imperial University with Dr. Martin, near the north-east end. The third and fourth are Bishop Scott's mission and the rented house of Dr. Morrison, the 'Times' correspondent, in the south-east corner, near the former hole in the wall made by the British, north of the British Legation. These latter persons, living in rented houses, will move out to other and more convenient quarters. Reuter's agent, who has been occupying a house in the same quarter, has already moved, securing a hospitable reception with the commander of the American guard.

**COUGHS AND COLDS IN CHILDREN.**  
RECOMMENDATION OF A WELL-KNOWN CHINESE PHYSICIAN.

I use and prescribe Chamberlain's Cough Remedy for almost all obstinate, contracted coughs, with direct results. I prescribe it to children of all ages. An agent is recommended to all in need and seeking relief from colds, coughs and bronchial affections. It is not only safe and in the hands of the most unprofessional. A universal panacea for all ailments. Mrs. MARY R. MERRIDY, M.D., Ph.D., Chicago, Ill., U.S.A. For sale by all Dealers; WATKINS LTD., General Agents.

## LOCAL AND GENERAL.

### Death of a Fusilier.

Private Wilkinson, Royal Welch Fusiliers, who was serving on the 'Alway' at Tientsin, died from diphtheria in the night of the 1st inst. He had served eight years service in the British army.

### Bowling.

There will be a return bowling match between the Hongkong Club and the Navy to-morrow evening, the 18th inst., at 9 p.m.—The following will represent the Club:—R. J. Gerrard, Capt. Rotherham, R.W.F., C. P. Chater, J. E. Lee, J. W. C. Bunner, A. E. Ellis, J. Hooper, E. H. Hinds (Capt.).

### Drab for Khaki.

It is notified that when stocks of white haversacks are exhausted, Khaki or Drab haversacks will be supplied to units by the Royal Army Clothing Department. Regimental stocks of the white haversacks should first be utilised and white and khaki or drab haversacks will be worn side by side until the white haversacks are worn out.

### Brutal Assault on Soldiers.

The Sessions Judge at Allahabad has sentenced five natives concerned in a brutal assault on six soldiers—two of them to four years; and three to two years' rigorous imprisonment. The Judge characterised the offence as outrageous. Forty natives armed with lathis attacked six defenceless British soldiers.

### Proposed State Steamers.

A Calcutta telegram dated 30th ult. says:—Mr. Caldwell, M.P., who is now in Calcutta, in giving his views to the press on the reform of the P. & O. service, again suggested that a State Line of steamers between Bombay and British ports is the true remedy in the interests of the trade of Great Britain and India.

### The Abandoned Drawing-Rooms.

The abolition of 'Drawing-Rooms' and the substitution of evening Courts by the King is said to have been decided upon in deference to the feeling in London society that the drawing-rooms of the last reign are incongruous and out of the present century. We hope the reform will spread to Hongkong.

### Lord Rosebery's Position.

The London correspondent of the *Englishman*, telegraphing on the 20th inst., states that there is excitement in political circles owing to the rumour that Sir H. Campbell-Bannerman has approached Lord Rosebery, in the hopes of restoring the unity of the Liberals; but that Lord Rosebery has resolved to maintain his detached position.

### Cricket.

A cricket match between the Craignower C.C. and the Hongkong Police Cricket Club will be played at the Happy Valley to-morrow, commencing at 2 p.m. The following will represent the Craignower Cricket Club:—Messrs R. Bass, L. E. Lunnert, J. L. Stuart, J. P. Jordan, A. E. Asger, H. Hartman, L. A. Rose, F. Rapp, E. Ford, J. H. Ruttenberg and M. E. Asger (Captain).

### Music at Hongkong Hotel.

By kind permission of Lieut.-Col. Baillie and Officers, the Band of the 22nd Bombay Infantry will play at the Hongkong Hotel to-morrow (Saturday) evening, from 8 p.m. to 9.30 p.m.:—  
Quadrilles, Promenade, Conté, selection. A Runaway Girl, Monksong, Polka, Three Jolly Cobs.  
Mars.  
Gavotte, Secret Love, Reel, Valse, Jeunesse Dorée, Walzendeul, Selection, The Goddess, Junes.  
God Save the King.

### Mosquitoes and Malaria.

Remarkable testimony as to the possibility of combating malarial fever by modern scientific methods is afforded by a letter which Major Surgeon Gorgias, the Sanitary Officer of Havana, has written to a member of the Liverpool School of Tropical Medicine. After the annexation of Cuba by the United States, a Commission of the United States Government found reason to believe that the infection of yellow fever, like that of malarial fever, is carried by mosquitoes of a particular kind. Testing no time in abstract discussion on the matter, the Americans started to work at once to clear out mosquitoes in Havana. The result is declared to have been wonderful. Surgeon Gorgias writes that for the first time since 1792 Havana has been free from yellow fever in October, while malaria has decreased more than one-half. He adds also that Mr. Le Prince, who is directly in charge of the anti-mosquito work, estimates that mosquitoes have decreased 95 per cent. by the operations, as compared with the same time last year. Dr. Gorgias has been issuing the most striking monthly reports to his Government about the matter; and his results, taken together with the no less remarkable results obtained by the Sierra Leone Expedition of the Liverpool School of Tropical Medicine, show not only that disease can be greatly reduced by attacking the insects which carry it, but that these troublesome insects can be largely reduced in a matter of civilisation if the local authorities will only take the trouble.

## LOCAL AND GENERAL.

### A Satisfactory Deal.

The schooner *Tai Ye*, which put into Manila recently owing to stress of weather, while on voyage from Moji to Hongkong with 400 tons of coal, has now been sold, along with her cargo in Manila. The coal was for Messrs Bradley and Co., Hongkong, and Messrs Shewan, Tomes and Co., were the agents.

### Plague.

The plague is with us once more. The first case for the present year has just been notified, a Chinese female, residing at No. 55, Jardine's Bazaar, Wandui, having succumbed to the malady. The authorities acted promptly, cleansing and disinfecting every corner of the house and all it contained. Up to the 15th of last January, 5 cases had been reported.

### Burglary at Tientsin.

An audacious burglary took place on the 1st inst. in the Rue Dillon, French Concession, Tientsin. The wall of the large godown of Messrs. Sander, Wicker and Co. was broken through, leaving a hole large enough for a caddy to crawl through. The wall is a solid piece of masonry nearly two feet thick. The thieves proceeded with their work unobserved, entered the godown, broke open a number of cases, and carried off a quantity of goods, leaving no clue as to their identity.

### Naval Movements.

The N.C. Daily News of the 13th inst. reports:—A remarkable gathering of men-of-war is reported on the coast of Chekiang, between Ningpo and Wenzhou. The Italian vessels are in Nimrod Sound, this part of the coast being a favourite haunt with the Italians. The German first-class cruiser *Kaiserin Augusta* is also in those waters for the purpose of drilling landing parties. The French gunboat *Lion* has been in Taichou Bay, her mission being apparently to support M. Reynaud's efforts to obtain a concession at Hainan. The interest that foreign men-of-war take in the coast and harbours of Chekiang is doubtless very flattering to the native authorities.

### German Troops at Tientsin.

The *China Times* of the 4th inst. says:—The German 2nd Ostasiatische Regt., who have been confined to their barracks for a fortnight, are to be released to-morrow (Sunday). The order for their confinement was given, it is understood, in consequence of the fatal attack by a private upon a sergeant, outside a Taku Road bar-house, as recently reported in our columns. The men were asked who was the culprit, and no reply being forthcoming, the military authorities had no alternative but to order the whole regiment to barracks. We regret to state that a German sergeant who was recently reduced to the ranks for misconduct, committed suicide the day after Christmas Day. After doing guard duty, he was relieved in the ordinary course, when he turned his rifle upon himself, with fatal effect.

### Opium Hulks at Shanghai.

The N.C. Daily News learns that the owners of the opium hulks, have made a joint protest against the order that these obstructions are to be removed by the 1st of May next, but that the Treaty is firm in its determination to have them removed. We understand that they have been offered a berth off the Chinese coast, and their owners have been assured that if they prefer to remove them altogether, the Consular Body will urge that the bonding privileges they now enjoy shall be transferred to the godowns which will replace them. It is pointed out that the removal of the hulks gives the owners of godowns in Shanghai a splendid opportunity to ask for the extension of bonding facilities generally, which would far outweigh whatever temporary loss may be caused by the removal.

### The Taku Bar.

The *China Times* of the 4th inst. says:—The Provisional Government of Tientsin has asked the generals of the foreign contingents in North China to request of their respective host commanders to obtain soundings at Taku, so as to enable the Conservancy Board to prepare a scheme for the improvement of the Taku Bar. Increasing disappointment is expressed at the lack of practical results so far attained by the Conservancy Board, after very considerable expense. They have, of course, a very difficult task, and a labour difficulty is now added. One contractor was employing 52,000 coolies, and was to have completed this part of the contract by the 31st inst. This contractor has now stopped operations on the ground that his coolies will not work in the cold weather. He is to start work again on March 1. The T. P. G. is expecting to hear from the Ministers at Peking regarding the retention of the present arrangement. They will not receive any definite instructions until after the arrival of the Court at Peking on or about the 7th inst.

### PROMPT ACTION.

In dealing with what may be only a slight cough will often avert some more serious illness.

### STEARNS' COUGH CURE.

Is just the thing for this, as it is always speedy and effective. Wholesale from A. S. Watson & Co. Ltd., Hongkong.

## TELEGRAMS.

[REUTER'S SERVICE.]

### SOUTH AFRICA.

#### The Chase of De Wet.

General Elliot's protracted pursuit of Commandant De Wet has resulted in the dispersal of his force among the hills to the south of Heilbron, Orange River Colony, after losing twenty-nine wagons and carts.

#### Medal for the Militia.

The King has approved a medal for the Militia units serving at Gibraltar, Malta, and in Egypt during the war, the ribbon to be the same as for the South African medal.

#### Reinforcements for the Cape.

King Edward has inspected 1,300 Guardsmen who are to embark for Capetown.

[REUTER'S SERVICE.]

### VON BULOW AND CHAMBERLAIN.

Berlin, January 9.  
The Chancellor, Count Bulow, referring in the Reichstag to the well-known remarks of Chamberlain, stated that the German Army stood too high to be touched by crooked and unjust opinions. It was in the interest both of Germany and Great Britain that friendly relations between the two Powers should continue without any clouds. The Triple Alliance was in force as before. The Franco-Italian agreement as to the Mediterranean question did not touch the Triple Alliance in any way. Germany was pursuing the most peaceful line of policy. Her friendship was precious to everybody, her enmity indifferent to no one.

### GERMANY'S FINANCIAL DIFFICULTIES.

The Secretary of the Treasury, Baron Thielmann, then spoke about the very unpleasant financial situation of the Empire, which rendered necessary an additional loan. The expedition to China has cost 226 million marks, credits amounting to 276 millions having been voted. He proposed to use the first Chinese indemnity rate, viz., 5 million marks, at once to pay off the private claims. (According to our dispatch the private claims amount to 13.48 million marks, so that apparently the Bundesrat—in opposition to the original intention of the Government—has agreed only upon a part-payment of private claims.)  
—The Editor: The maintenance of the German troops in China during 1902 would demand 26 million marks (our telegram of the 5th December mentioned 22 million marks.—The Editor). In case that the economical depression in Germany should continue, the Government was obliged to open new resources to the Treasury. Especially beer and tobacco were to be taxed.

### DISASTROUS COLLISION IN AMERICA.

Two trains collided in a tunnel of the New York Central Railway. The loss is reported to be great.

### HONGKONG LAND INVESTMENT AND AGENCY CO., LTD.

The following is the thirteenth report of the Board of Directors to the Ordinary Meeting of Shareholders, to be held at the Company's Offices, Victoria Buildings, at noon on Thursday, the 23rd inst.:—

General.—The Directors have now to submit to you a General Statement of the Affairs of the Company and Balance Sheet for the year ending 31st December, 1901.  
The Net Profit for that period, including \$40,151.61 balance brought forward from last account, after paying all charges, amount to \$880,877.04. From this amount an Interim Dividend of 8% per Share has already been paid. It is now proposed to pay a final Dividend of 5% per Share, making a total dividend of 12% per cent. per annum on the Capital, and after writing off Directors' and Auditors' Fees there remains a balance of \$8,345.04 to be carried forward to the credit of a New Profit and Loss Account.

Dividends.—Mr. J. H. Lewis having resigned his seat, Mr. H. P. White was invited to join the Board in his place, and this now requires confirmation. Messrs. A. Haupt and H. P. White now retire by rotation, but offer themselves for re-election.  
Auditors.—The accounts have been audited by Messrs F. Henderson and J. C. Peter, who now retire but offer themselves for re-election.

J. J. BELL-IRVING,  
Chairman.

Hongkong, 9th Jan., 1902.

### Cricket Match.

There will be a match on the Cricket Ground to-morrow, Over 28 a Under 28, starting at 11 a.m. The following are the teams:—Over 28—Dr. Atkinson, T. C. Francis-Haynes, R. W. F., Major Dorshill, R. A., A. Mackenzie, Major Boreford Ash, R. W. F., Capt. Molewsky, H. E. R., Major Wynne, R. G. A. Capt. Krickelbeck, 22nd Bo. L. Capt. Rotherham, R. W. F., Capt. Cadogan, R. W. F., A. G. Ward (Capt).  
Under 28—J. Hooper, Capt. Clapham, Mr. Digby, R. N., Lt. Fanshawe, Mr. McKinley, R. N., W. Dixon, W. E. Dixon, F. W. Goldring, E. J. Davies, Another, J. Brown (Capt).

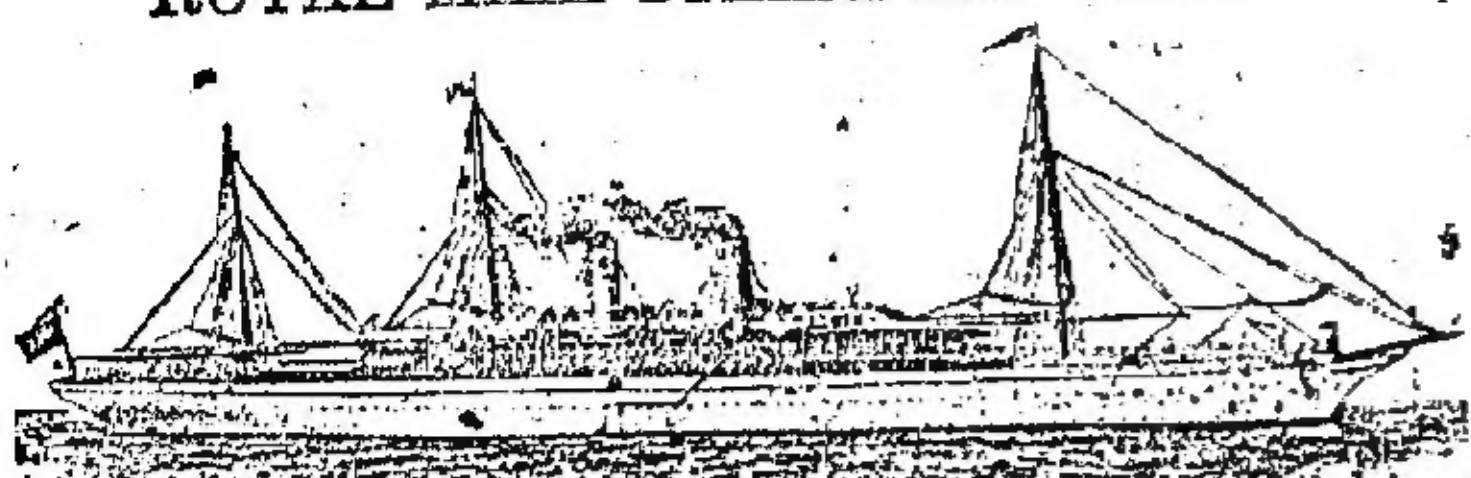

CLIVEN'S WOUND-PAINTED BRONZ MIRRORS.—The most wonderful Blood-Cleanser that modern, and medical skill have brought to light. Sufferers from Scrofula, Scary, Eczema, Bad Legs, Skin and Blood Diseases, Pimples, and Bores of any kind are advised to give it a trial to test its value. Thousands of wonderful cures have been effected by it. Sold everywhere at 2s. 6d. per bottle. Beware of worthless imitations and substitutes.
